What does it do?

Blackboard Collaborate is an online meetings space that is integrated in Desire2Learn. It provides a convenient and easy to use option for conducting online meetings with students or for recording presentations.

Pedagogical uses of piazza

- Conduct online office hours
- Hold online sessions
- Create collaborative spaces for student teams
- Record lectures for on-demand viewing

How do I get started?

When you login to Desire2Learn, you can create a room by selecting Online Rooms from the Learning Tools drop down menu. To make sure that the software performs correctly, make sure that you have the latest version of Java installed.
